

MyPatients

# YOUR PRACTICE MADE PERFECT THANKS TO MYPATIENTS APP

**THE EASY-TO-USE MYPATIENTS APPLICATION FOR SMART DEVICE OR PERSONAL COMPUTER IS REPLACING THE PATIENT TILE AND MEMBERS' SITE.**

The app has been tailored to the convenience of doctors and practice staff.

**The MyPatients app features include the following:**

- Access on the go. Useful information at your fingertips with a mobile and tablet app.
- Clinical viewer gives doctors access to clinical past hospitalisation and CareConnect.
- Ability to refer and search for a patient in app.
- View of patient's location, demographic and medical aid details.
- Group Practice staff will have a single login and access to all the doctors within the practice's patient information.
- Ability to contribute towards the patient's diagnosis.
- Collaborative care - receive and send non-urgent referrals to other specialists using the application.

**REGISTER FOR THE MYPATIENTS APP**

Existing admitting and consulting doctors will be registered if requested via DRM.

To log in,  
**scan the QR code.**

You can now access the **Mother and Baby collaborative SASOG guidelines** on [mypatients.mediclinic.co.za](http://mypatients.mediclinic.co.za)
