

MEDICLINIC SOUTHERN AFRICA HACKATHON

WELCOME FROM OUR SPONSOR

Dear Hackers,

It's HACKATHON TIME!

Welcome to Stellenbosch

Take a look around you... does it feel like a typical Mediclinic event, or like a usual business trip? It certainly does not. This hackathon was conceived and developed to be a one-of-a-kind event, one to break habits and to encourage us to start looking at our business with a different lens. We've worked hard over the past months to prepare for this event, and the entire Mediclinic and Launch Lab teams are very excited to have you all here with us!

You showed great potential amongst the hundreds of applicants, and the hackathon will give you a stage on which to shine. We now count on you to use the next two days to develop and accelerate your entrepreneurial ideas and help bring our organisation to the next level. Take advantage of this unique opportunity to be empowered and to demonstrate the growth and agile mindset each Mediclinic employee should strive for.

We hope you will enjoy the next few days. It may be stressful and tiring at times, but it will also be fun and you will get a great networking opportunity. Don't be nervous – just go for it. Show us what you're capable of and make us proud!

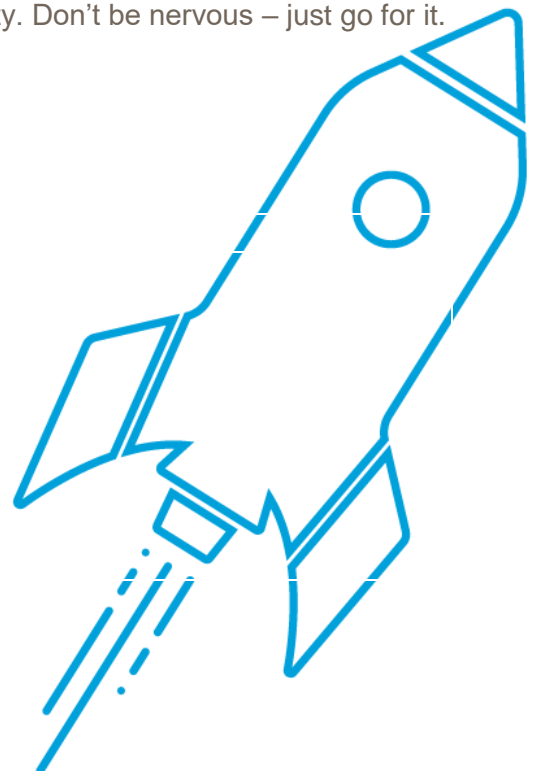

Good luck!

Greg van Wyk
Chief Executive Officer
Mediclinic Southern Africa

Dr Tyson Welzel
Group Chief Innovation Officer
Mediclinic International

Outside of work, he mountain-bikes, plays bass-guitar in the NG Moederkerk's church band and likes to play with his grandchildren.

Josh Romisher
CEO
Launch Lab

Joshua Romisher, CFA, is a serial entrepreneur with a diverse portfolio of ventures, including a boutique investment bank in New York, solar irrigation start-up in India, frozen yogurt franchise in San Francisco and solar home business across Sub-Saharan Africa.

His mission is to create impact at scale with a specific focus on climate. He is driven by the opportunity to provide hard working people across the globe with the platform to put their skills to work in affecting positive social change.

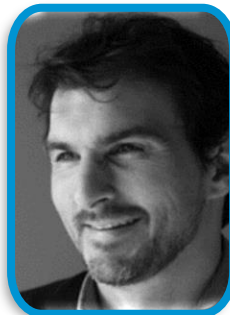

Dirk Wagener
General Manager:
People Productivity &
Health

Dirk is interested in software engineering, and the entrepreneurial / commercial side of building new business. Using technology to improve lives is something that he is passionate about, and he gets the opportunity to make a positive contribution through some of the revolutionary healthcare innovations we are currently developing for local and global clients.

He started his career as an electronic engineer with a strong focus on tech development but gravitated towards business and eventually became the CEO of Stone Three Healthcare (S3HC). After 2 years in that position, he merged S3HC into the bigger Stone Three group, where he is now the GM of Industrial Health & Safety.

Outside of work, he is a keen surfer, fisherman and nature lover -which are all passions he shares with his 3 young boys.

Mark Silberbauer
Product Manager
Stone Three Digital

As an engineer with a passion for exciting, impactful technologies, Mark built up a strong background in software development and then moved on to a decade of management experience assisted by an MBA. He has specific experience in innovation and entrepreneurial endeavours having founded and run an online business.

Mark's out-of-work interests include surfing, surviving parenthood and more surfing.

Dirk Wagener
General Manager:
People Productivity &
Health

Dirk is interested in software engineering, and the entrepreneurial / commercial side of building new business. Using technology to improve lives is something that he is passionate about, and he gets the opportunity to make a positive contribution through some of the revolutionary healthcare innovations we are currently developing for local and global clients.

He started his career as an electronic engineer with a strong focus on tech development but gravitated towards business and eventually became the CEO of Stone Three Healthcare (S3HC). After 2 years in that position, he merged S3HC into the bigger Stone Three group, where he is now the GM of Industrial Health & Safety.

Outside of work, he is a keen surfer, fisherman and nature lover -which are all passions he shares with his 3 young boys.

Mokete Litelu
Group Manager:
Procurement
Mediclinic Group Services

Mokete Litelu joined the Mediclinic Group in 1998 as the first trainee clinical engineer student. After completing the compulsory training, he was appointed as a Clinical Technician at Mediclinic Bloemfontein. After a year he resigned and joined a private company. Two years later he returned to Mediclinic. He worked as a clinical technician for several Mediclinic hospitals and trained several clinical technicians in the medical field.

Mokete was later appointed as a Technical Manager for Mediclinic Kloof and then Mediclinic Bloemfontein.

In 2008 his career path advanced further and he was appointed as the Procurement Manager for Mediclinic Southern Africa. Since 2013 Mokete has held the position of Group Procurement Manager for Mediclinic Group Services. His responsibilities include driving synergies and savings across the business divisions in Southern Africa, the Middle East, and Switzerland for Capex and ICT hardware.

Dr Ann Van Zyl
Education & Training
Manager
Mediclinic Southern
Africa

Dr Ann van Zyl qualified as a Registered Nurse (cum laude) at the University of Stellenbosch in 1989. She specialised in perioperative nursing care and obtained the Diploma in Operating Room Nursing in 1994. In 1997 she took up the role of LDF in the operating room department before moving to the Mediclinic Learning Centre in Bellville, in 2001, as a theatre educator. She obtained her Postgraduate Diploma in Nursing Education (cum laude) in 2002 and a year later the Postgraduate Diploma in Nursing Administration (cum laude) through the University of Stellenbosch.

In 2014 she graduated with a Master's Degree in Higher Education and Training at the University of Stellenbosch and in March 2019 was awarded a Doctorate in Higher Education and Training at the same university. Ann worked in the following roles in Mediclinic since joining the Higher Education and Training team: Training Manager, Nursing Training Manager, Higher Education and Training Manager and is currently the Acting Training and Development General Manager at Mediclinic Southern Africa.

Personal Interests: Gardening, needlework (tapestry), and off-road traveling. She also likes reading.

JURY AND JUDGING CRITERIA

To rank the final pitches at the Hackathon, we use a system from 1 (very poor) to 6 (excellent) to rate each of the above-weighted criteria.

30% CUSTOMER VALIDATION

Real-world feedback from people and or data about prospect clients considered.

- 1 = no validation at all
- 6 = excellent validation presented

30% BUSINESS MODEL

Elements of a consistent and well-thought-out business model canvas considered.

- 1 = no BMC elements elaborated
- 6 = complete and consistent BMC

30% IMPLEMENTATION FEASIBILITY

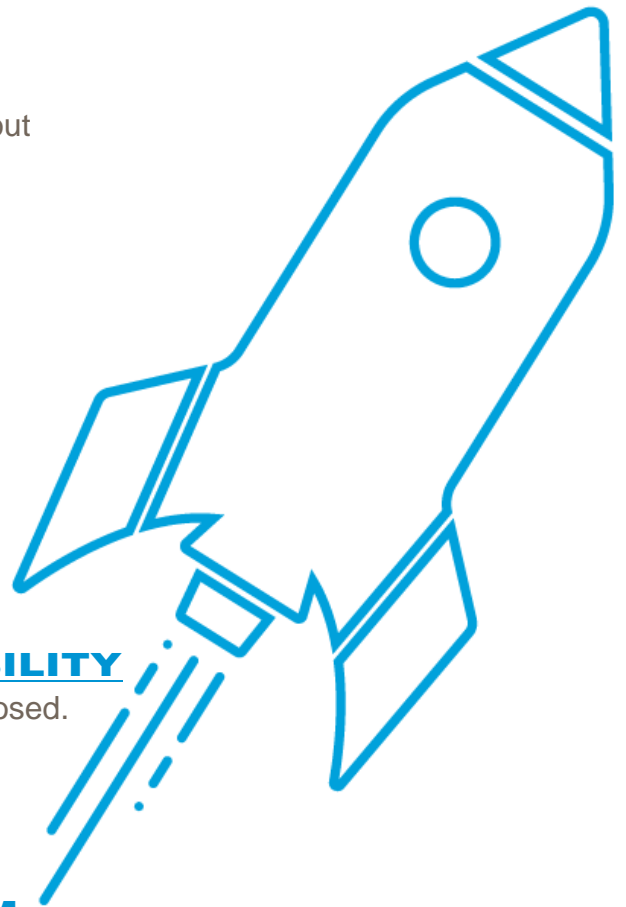

How easy or complex is the implementation proposed.

- 1 = very complex and costly
- 6 = low complexity and easy to pilot

10% PRESENTATION AND TEAM

Performance of the people as a team, convincing pitch.

- 1 = low energy level / lame pitch
- 6 = high performance team / excellent pitch

THE JURY

Greg van Wyk
Chief Executive Officer
Mediclinic Southern
Africa

Greg van Wyk is a law graduate from the University of Johannesburg (formerly RAU), and also holds a Diploma in Education from Edgewood College (formerly Bechet College) in Durban.
