

MAXILLOFACIAL AND ORAL SURGERY AT OUR FACILITY

CONTACT OUR SPECIALISTS IN PRIVATE PRACTICE FOR ADVANCED CARE.

Specialised maxillofacial and oral care include:

- Surgical removal of wisdom teeth, dental cysts and tumours
- Placement of dental implants
- Bone grafting
- Temporomandibular joint disorders
- Facial trauma and reconstruction of the jaws and facial bones
- Orthognathic surgery

Patients will be admitted to Mediclinic Stellenbosch for acute and overnight procedures while minor and same-day procedures will be performed at the Mediclinic Stellenbosch Day Clinic.

RESIDENT SPECIALIST
