CONSULT

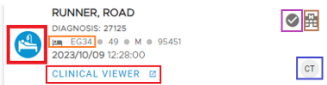

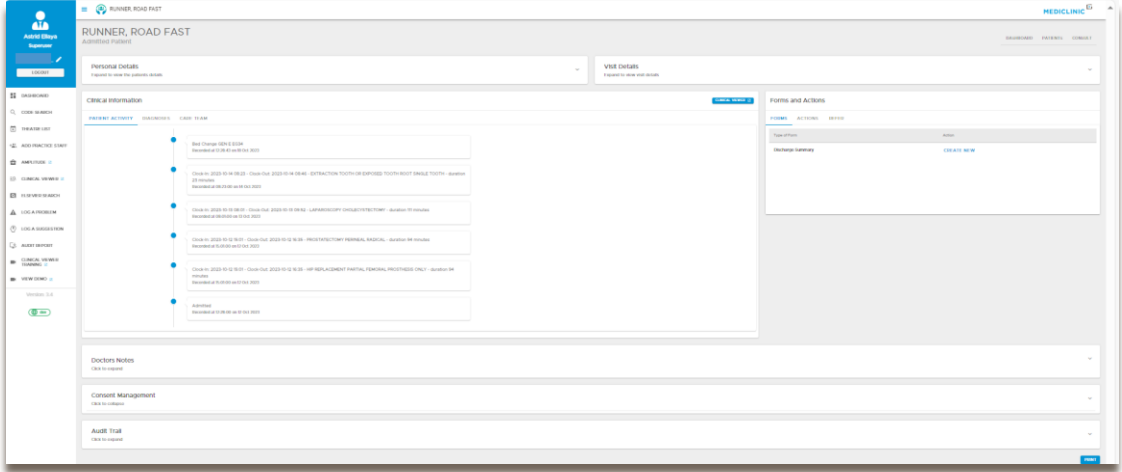

New functionality to allow doctors and staff to auto add themselves into a patients care team. Can be used to support existing process done by hospital reception staff or unit admin assistant. For use when consulting a new patient, for pre-operative review when a group practice is added on to a patients care team and can be used for locums or on call cover.

This is recorded on the patient admin system and you are able to see all doctors who are part of the care team.

Step	Action								
1	<p>From the Home/Dashboard screen you can Click on consult tab.</p>  <p>Select a location.</p>								
2	<p>Select either group practice or by a doctor. You can further filter using the patients visit number or surname.</p>								
3	<p>Once you have found the correct patient</p>								
2	<p>Complete the following fields:</p> <table border="1" data-bbox="288 1077 1474 1355"> <thead> <tr> <th data-bbox="288 1077 564 1126">Field</th> <th data-bbox="564 1077 1474 1126">Action</th> </tr> </thead> <tbody> <tr> <td data-bbox="288 1126 564 1216">  box </td> <td data-bbox="564 1126 1474 1216">Tick the box next to the patients name</td> </tr> <tr> <td data-bbox="288 1216 564 1305">Add a reason</td> <td data-bbox="564 1216 1474 1305">Use the drop down box to add a reason; this will be recorded in Patient admin system as the reason for consultation.</td> </tr> <tr> <td data-bbox="288 1305 564 1355">Submit</td> <td data-bbox="564 1305 1474 1355">Click submit, this automatically add the doctor as part of the care team.</td> </tr> </tbody> </table>	Field	Action	 box	Tick the box next to the patients name	Add a reason	Use the drop down box to add a reason; this will be recorded in Patient admin system as the reason for consultation. CLINICAL INFORMATION

Follow functionality is contained within these:

Step	Action								
1	<p>Within the patients Card scroll down to see clinical information section:</p>								
2	<p>Filter according to which patients you want to view, note that each filter works independantly.</p> <table border="1"> <thead> <tr> <th>Tab</th> <th>Description</th> </tr> </thead> <tbody> <tr> <td>Patients activity</td> <td>Displays bed changes including level of care and theater in and out times in a timeline view.</td> </tr> <tr> <td>Diagonses</td> <td>Displays coded ICD-10 diagnosis, note that final coding occurs after discharge.</td> </tr> <tr> <td>Care Team</td> <td>Displays all doctors involved in the patients treatment during admission.</td> </tr> </tbody> </table>	Tab	Description	Patients activity	Displays bed changes including level of care and theater in and out times in a timeline view.	Diagonses	Displays coded ICD-10 diagnosis, note that final coding occurs after discharge.	Care Team	Displays all doctors involved in the patients treatment during admission.
Tab	Description								
Patients activity	Displays bed changes including level of care and theater in and out times in a timeline view.								
Diagonses	Displays coded ICD-10 diagnosis, note that final coding occurs after discharge.								
Care Team	Displays all doctors involved in the patients treatment during admission.								

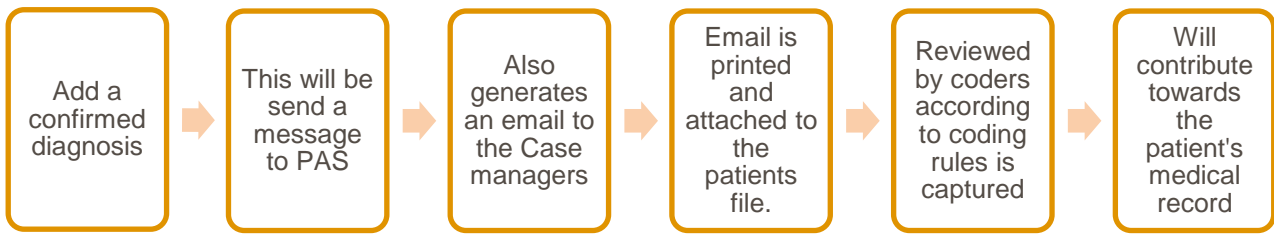

SUBMISSION OF A CONFIRMED DIAGNOSIS

This function allows a Doctor or practice the ability to electronically submit ICD-10 diagnoses and associated clinical information.

This information will assist with improving access to clinical information for the patients unified care record seen in the Clinical Viewer, as well as improved congruence between hospital and practitioner's diagnoses.

ICD10 codes are used not just for account raising, but also for data collection for clinical and risk management purposes.

Rules	Description
Confirmed diagnosis	Please submit all confirmed diagnoses treated.
If any icd-10 code contains an (Dagger or +)	You will need to add the primary linked diagnosis.
Timing if submission	Ideally, please submit these while the patient is admitted or within one week of discharge as we may not be able to capture or reflect this after final coding and billing takes place.

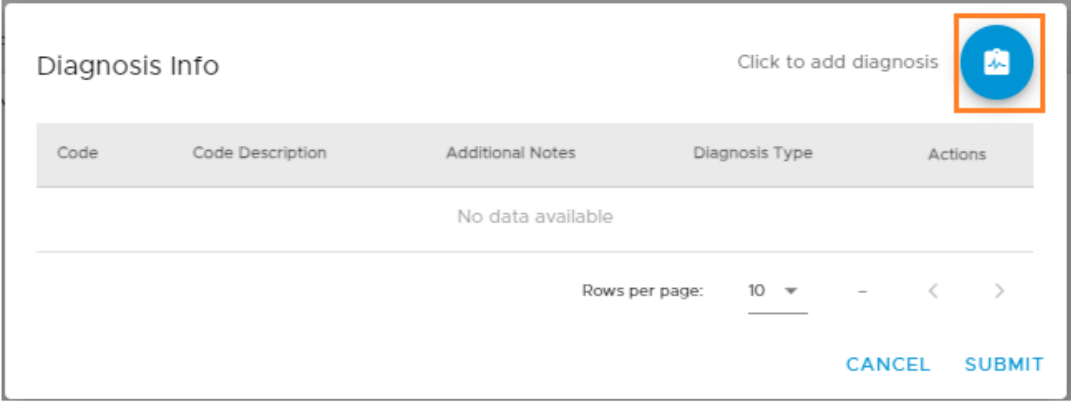

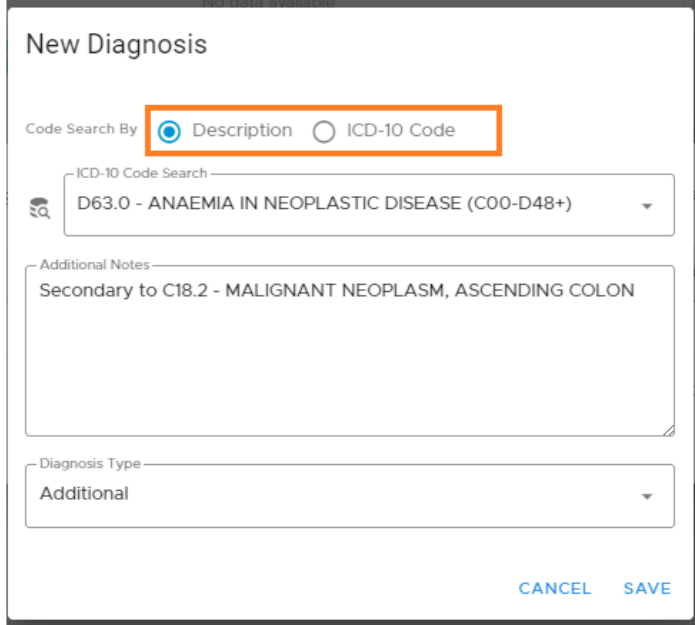

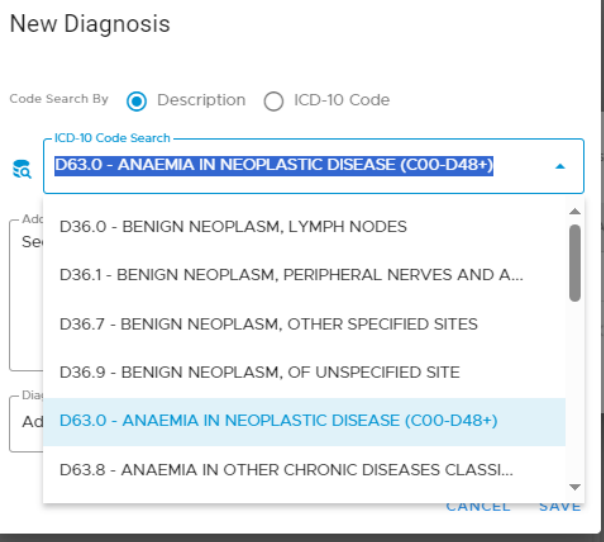

Example

Example

When submitting Anaemia in Neoplastic disease it must be linked to the primary neoplastic cause.

Step	Action
1	Within the patients Card scroll down to see clinical information section. Click on Diagnoses tab , this will display all currently coded diagnoses.
Screen	
2	Click on Add Diagnosis
Screen	
3	Click the circle button.

Screen	
4	<p>Select between description or ICD-10 code. Enter additional notes regarding the diagnosis.</p>
	
5	<p>Enter either into the code search box. Select the correct code.</p>
screen	
6	<p>Add additional notes regarding the diagnosis or primary cause.</p>

Choose between Comorbidity, additional or final.
Then click submit.
