OVERVIEW

Log in to MyPatients

Follow these steps:

Step	Action			
1	Open a browser (Chrome, Edge or Safari) via your smart device or computer, type in mypatients.mediclinic.co.za and press Enter .			
Screen	The following screen will appear:			
	Choose your account x + https://mediclinicb2clive.b2clogin.com//mediclinicb2clive.onmicrosoft.com/b2c_1_mypatients_si/oauth2/v2.0/a My Patients dev Patient Dabbord HSC/2020 - Home. MML Document Str. Final UAI patholog. GitHub - Intersyste. Clinical Viewer Req MEDICLINIC Sign in with your email address Jetrid Ellaya@Mediclinic.co.za Jetrid Ellaya@Mediclinic.co.za Sign in </td			
2	Click in the Username field and type in your registered email address.			
3	Click in the Password field and type in your temporary password if this is your first log in.			
4	Click Sign in			

Switch between doctors or other Healthcare professionals

Click the dropdown arrow below your name on the menu pane, to select the view for a specific doctor or healthcare professional's (HCP) patients.

Application icons

The following icons are available in the application:

lcon	Description
	Admitted patient
4	Emergency patient
	Discharged patients
e	Referred Patient (new referrals received)
	Scheduled theatre case
#	Hospital name (hover over this to see the name of the hospital)
	Use this to indicate which patients have been seen during ward rounds (resets every day). The tick turns green once clicked and can undo by clicking again. Refresh data to update.
Ş	Final billed icon- click once billing complete to indicated billed patients. Turns green once clicked and can undo by clicking again. Refresh data to update.
EC	Signifies the arrival method of the patient was via EC
R	Signifies that you are the doctor that referred the patient into hospital
А	Signifies that the you are the admitting doctor
СТ	Shows that you are an additional treating doctor or part of the Care Team
EG34	Ward and bed number, e.g. Ward E bed number 34

Menu pane navigation

From the **Home** screen you will see the following menu options:

DASHBOARD TAB

Overview

Dashboard is automatically opened providing an overview of your three most recent patients under patients in hospital (admitted and EC), discharged and scheduled theatre cases. You will also see recent referrals on this view.

Dashboard layout

The following tabs will display on the right side of the **Dashboard** screen:

Tab	Description
Dashboard	The Dashboard tab is automatically opened providing an overview of your three most recent patients under patients in hospital (admitted and EC), discharged and scheduled theater cases provided your doctor or HCP is listed as a treating provider on Mediclinic Patient Administration System. You will also see recent referrals on this view.
Patients	Displays a full list of all the patients currently in the hospital, the patients that have been discharged and a combined view.
Consult	This feature enables you to search for a patient who was discharged within the past 21 days and with whom you are consulting. If you are not already part of their care team in our Patient Administration System, using this feature will automatically add you to their care team.

PATIENTS TAB

Overview

From the **Home/Dashboard** screen you can click on **Patients** tab. The following screen will display:

You will be able to see all the patients where your doctor or HCP are indicated as the treating provider on the Patient Administration System.

The following functions can be performed from this screen:

- Filter
- Search

For Clinicians and HCP's, the filter for discharged patients will show the last 90 days:

```
FILTER BY 
Patients In Hospital 
Discharged Last 90 Days 
Patients in EC 
Discharged from EC 
All Patients
For EC-Clinicians, the filter for discharged patients will show the last 7 days:
```

FILTER BY 💿 Patients In Hospital 🔘 Discharged Last 7 Days 🔘 Patients in EC 🚫 Discharged from EC 🚫 All Patients

Filter

Filter according to which patients you want to view, note that each filter works independently. Use one of the following filters:

Filter	Description
Patients in hospital	All admitted and EC patients
Discharged last X days	Displays a full list of all the patients that have been discharged.
Patients in EC	All patients currently in EC

Discharged from EC	All patients discharged from EC
All patients	All admitted, EC and discharged patients.

Search

Follow these steps to search for a patient:

Step	Action
1	 Click Search to filter patients on any of the following: treatment type (Admitted by me, Part of Care Team or Referred to me) hospital ward surname visit number date of birth
	← Search Search by Select Type All Select Hospital All Select Ward All Search on surname or visit number Q Search on date of birth Image: CLEAR Apply
2	Click Apply.
Note	After the patient has been located, remember to clear the Search filter.

CONSULT TAB

Overview

This functionality allows doctors, HCP's and practice staff to auto add themselves into a patients care team within 21 days of discharge. It can be used to support the existing process done by hospital Reception staff or Unit Admin Assistants.

It can be used when consulting a new patient, for pre-operative review when a group practice is added on to a patients care team and can be used for locums or on-call cover.

This is recorded on the Patient Administration System and displays all doctors and HCP's who are part of the care team.

Add a doctor or healthcare professional to a patient's care team

Follow these steps:

Step	Action					
1	From the Home/Dashboard screen, select the Consult tab.					
	Consult DASHBOARD PATIENTS CONSULT					
	Find Patients					
	Select Location -

	ADD DIAGNOSIS INFO			

Care team	Displays all healthcare providers involved in the patients treatment during
	admission.

Submission of a confirmed diagnosis

This function allows a doctor or their practice staff (not available to HCP's) the ability to electronically submit ICD10 diagnoses and associated clinical information.

This information will assist with improving access to clinical information for the patients unified care record seen in the Clinical Viewer, as well as improved congruence between hospital and practitioner's diagnoses.

ICD10 codes are used not just for account raising, but also for data collection for clinical and risk management purposes.

Rules	Description
Confirmed diagnosis	Submit all confirmed diagnoses treated.
If any ICD10 code describes a Sequelae (old condition, or no longer present)	Add the current diagnosis or late/residual effect of the sequelae. Example: I69.3 - Sequelae of cerebral infarction. Additional notes: Current admission for management of R13 – Dysphagia, due cerebral infarction 5 years ago.
If any ICD10 code describes 'in a disease classified elsewhere' or contains a bracketed reference (Dagger or +)	Add the primary linked diagnosis. It is mandatory to add the linked primary diagnosis as the codes with these descriptors cannot be added to an account on their own without the linked diagnosis.
	Example: D63.0 - Anaemia in neoplastic disease (C00-D48+). Additional notes: Anemia secondary to C18.2 – Malignant neoplasm, ascending colon.
Timing if submission	Ideally submit these while the patient is admitted or within 2 days of discharge as we may not be able to capture or reflect this after final coding and billing takes place.

Example

New Diagnosis	
Code Search By Description ICD-10 Code	
C D63.0 - ANAEMIA IN NEOPLASTIC DISEASE (C00-D48+)	*
Additional Notes	
Diagnosis Type Additional	-
CANCEL S	

When submitting Anaemia in Neoplastic disease it must be linked to the primary neoplastic cause.

Step	Action
1	Within the patient's card scroll down to see the Clinical Information section and click the Diagnoses tab to display all currently coded diagnoses.
