Dear Doctor

COVID-19 VACCINATIONS UPDATE – HOW TO ACCESS VACCINATIONS AS A HEALTHCARE WORKER

We are excited to confirm that the process for healthcare workers to register for access to a vaccine, if you have not already been vaccinated, has been confirmed. This is the process for healthcare workers with professional registration, the process for others, e.g. administrative staff, is not yet clear.

Please take note of the following points:

- You will be required to be **registered on the EVDS** already as a healthcare worker to make a booking.
- No SMS will be sent for private site vaccination as your time and date will be allocated in the process, public site vaccination registrations will receive an SMS with their time and venue for vaccination.
- The process for healthcare workers with/without medical aid is not the same
- Mediclinic facilities will not have capacity to assist healthcare workers without an appointment as the number of vaccines we have available per day is limited, please ensure that you make the appointment to ensure access for a specific day.
- Registration for healthcare workers with medical aid must be processed via the link:
<https://bookings.v4hcw.co.za>

Welcome to the V4HCW Covid-19 Vaccine booking portal

This portal is open to

- Phase 1
 - Health Care Providers
 - Health Care Workers

Private Vaccination sites populate their availability on this portal which then allows you to schedule yourself accordingly.

Sites are opening up daily, so please check back regularly if you do not find site close to you.

Find your profile

Please enter your ID number in full in the box below. We will search our database (V4HCW) for your information.

Please allow location sharing, if prompted by your browser, this helps us find your closest vaccination facility

We cannot find a record for ID number : 12345

If you have made a mistake while entering your ID number, please go back and retry, or continue to register a new profile here

Please confirm your details

Parts of your email and cell number are intentionally removed to protect your information. If it looks correct, you do not need to change it.

Name _____
Surname _____
Email _____
Cellular Num _____
Are you a member of a MEDICAL AID?
Insurance Products excluded _____

Registration and appointment process for those healthcare workers with medical aid:

When visiting the site you will see this screen. You can then continue to the booking site and enter your ID Number

You will have to register yourself by completing the information requested. Please indicate:

- If you are on a **medical aid**, as this will allow you to be allocated to a private site for vaccination
- Your acceptance of the V4HCW terms and conditions

If you have already registered on V4HCW, please update any details that may have changed, accept the terms and conditions, then save and continue.

From there you will be asked to select an appointment date and time at a venue or the system will allow you to search further by area or district.

You can confirm your appointment by clicking on one of the available timeslots. We recommend checking in the day before and the morning of the appointment, in case changes have been made. You can also click to cancel the appointment should this be necessary.

You will note that Mediclinic is now offering public vaccinations at seven of our facilities, with an additional three to follow next week. It is our intention to vaccinate at 43 Mediclinic facilities as soon as additional Pfizer and J&J vaccines become available. Our community will be engaging with us through these vaccination sites, hoping to follow our example. Please familiarise yourself with the information for your facility, so you are able to share this within the community – driving home our positive message of hope.

The following facilities have already opened for vaccination by appointment:

1. Mediclinic Cape Gate
2. Mediclinic Bloemfontein
3. Mediclinic Pietermaritzburg
4. Mediclinic Geneva
5. Mediclinic Vergelegen
6. Mediclinic Milnerton, and
7. Mediclinic Panorama

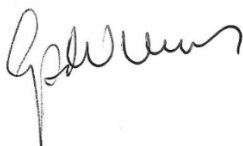

The following hospitals will become operational as vaccine centres shortly:

1. Mediclinic Morningside
2. Mediclinic Medforum
3. Mediclinic Gariep

Please direct and assist any family members or friends (non-healthcare workers) over 60 who wish to enrol for vaccination to this page: <https://vaccine.enroll.health.gov.za/#/> or to assist them through additional channels such as sending a WhatsApp message with “Register” to 0600 123 456. Alternatively, they can SMS *134*832* followed by their ID number. If the individual does not have an ID number, dial *134*832#.

This is our best shot at overcoming the COVID-19 pandemic.

Kind regards

Dr Gerrit de Villiers
Chief Clinical Officer
Mediclinic Southern Africa
