

TELEHEALTH

SYSTEM SUMMARY AND UPDATES

The telehealth platform remains available to doctors to consult with their out-patients. Designed with you in mind, the simple platform takes all your needs for a telehealth consultation and consolidates them all into one easy-to-use telehealth workflow. The platform includes numerous benefits for telehealth providers:

- Consult remotely with patients.
- See who is in your virtual waiting room.
- Utilise a secure platform.
- Access a simple PDF or ZIP file summary of your consultation.

RECENT SYSTEM ENHANCEMENTS INCLUDE THE FOLLOWING

- Patients will receive their consultation link to join the call as a SMS and email to ensure easy access to the consult.
- Patients will have the ability to automatically save the appointment into their calendars off the email invitation.
- Adding of an additional guest to the consultation.
- Ability to write a short patient note during the consultation.
- Ability to create your own note templates.

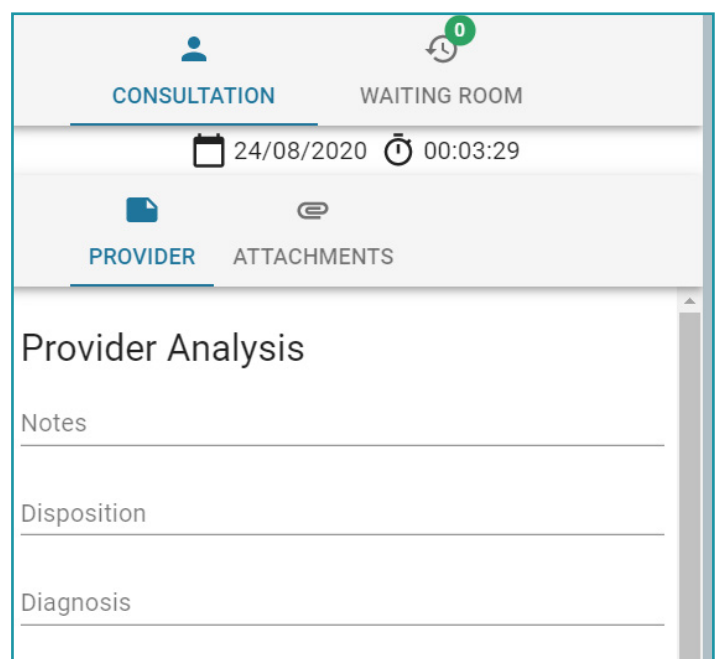

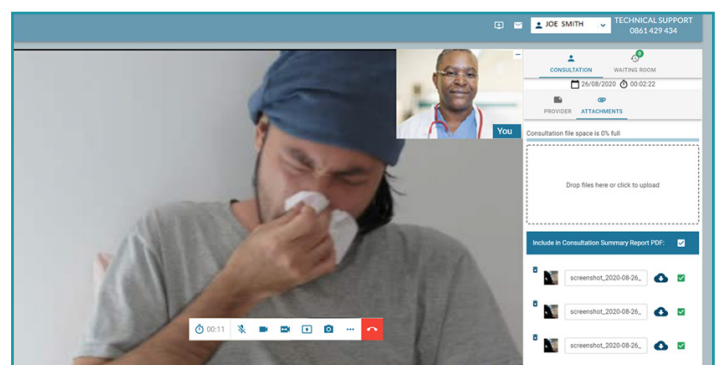

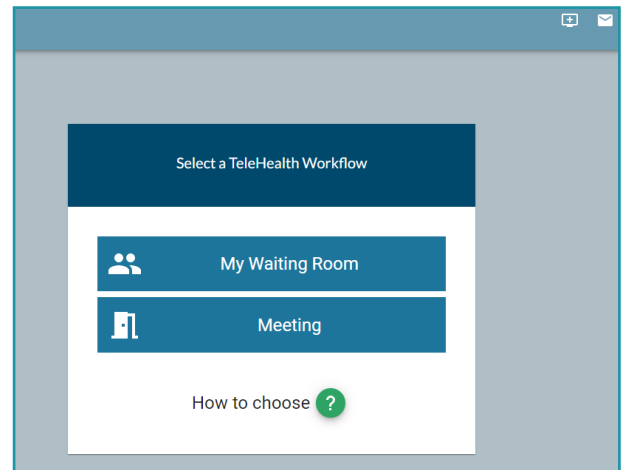

HOW DO I REGISTER?

If you would like to register and sign up for this platform, [please click here](#).

I'VE REGISTERED BUT NEED SOME HELP GETTING GOING

Please email telehealth@mediclinic.co.za so we can arrange time to help you.

Hi John,
You have been invited to a Pathways telehealth consultation at 26/08/2020 15:30 (SAST) with Dr Sarah Jones. Tap on the following link to begin your consultation:
